GREAT NEW BOOK ON SOUTH AUSTRALIAN FISHING

It's been a long time coming, but finally there's a publication that deals specifically with the baits and terminal tackle required to catch SA's most popular fish species.

"Baits, Rigs & Lures for South Australian Fishing" was written and compiled by Shane and Brett Mensforth, who recognised the need for a down-to-earth, easy-to-read text on fishing in their home state. The book is designed to help anyone, regardless of age or angling expertise, assemble better rigs, present better baits and choose the right lures for the fish they love to catch.

Within the book's 112 pages you'll find how to rig up and bait up for species like salmon, snapper, mulloway, kingfish, samson fish, mullet, gar, bream, flathead, snook, trevally, whiting and others. Rig drawings are by the country's finest illustrator of fishing knots and tackle, Geoff Wilson.

It's more comprehensive than any publication of its type ever produced in SA.
